

## New Plan for Settlement in Berlin Offered

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The United States is reported to have put before its Western Allies four sweeping ideas for possible U.S.-Soviet negotiations on Berlin, including a proposal for creation of an international authority to operate West Berlin supply lines with participation by East Germany.

The three other proposals circulated to London, Bonn and Paris earlier this week in preparation for new Berlin talks with Moscow late.

1. The issuance of nonaggression declarations by the North Atlantic Treaty Organization and the Communist Warsaw Pact together with guarantees against violation by either side of existing borders and boundary lines on the cold war frontiers in Europe.

The nonviolation pledge would have the effect of permitting both sides to preserve the security of existing demarcation lines, including the frontier between Germany and Poland. This would meet Soviet insistence on securing the Polish frontier, U.S. officials hope, while preserving the Western position that such boundaries can be finally determined only in a German peace treaty.

2. An agreement among the nuclear powers not to supply nuclear weapons to any country not now possessing them. This is evidently designed to meet a Soviet demand for Western guarantees against West Germany's becoming a nuclear power. It would not, however, rule out the possibility of providing nuclear weapons to NATO or of maintaining on the territory of NATO allies nuclear forces controlled by the United States.

3. The establishment of committees of East and West German officials to deal with practical problems arising between the two German states.

Washington informants said all four of the major proposals set forth in the working paper now before the Allies already have been taken up with Soviet officials in previous U.S.-Soviet discussions on Berlin. The Soviet response so far is described as one of lukewarm interest, but Secretary of State Dean Rusk reportedly feels that the proposals represent hopeful and practical lines.

Rusk plans to begin a new series of Berlin talks here Monday with Soviet Ambassador Anatoly F. Dobrynin. Some talks also may be held with officials in Moscow by U.S. Ambassador Llewellyn E. Thompson.

The Berlin situation is expected to be discussed by President Kennedy and British Prime Minister Harold Macmillan when they confer here and at Kennedy's Glen Ora estate in Virginia the week-end of April 28-29.

The exact role which the East Germans would play in the operation of the supply line under the Western proposal is not clear and reportedly has not been spelled out.

## Patriot's Day Slated April 19

Thursday, April 19, has been designated as "Patriot's Day" across the nation. The American Legion Auxiliary joins the Legion in urging the public to "Let The Bells Ring Out."

School bells, church bells, and chimes and bells of all sizes and kind will be rung for a period of four minutes beginning at 1 p. m. EST.

The bells will be an expression of the unity of all Americans in their love of Liberty, said Mrs. Joe Jones, chairman.

## Must Post Bond

LITTLE ROCK (AP) — James Weir of Dermott was told Thursday he must post \$23,000 bond to delay sale of his 994-acre farm to satisfy a \$16,972 judgment for overplanting his 1959 rice crop. Weir posted \$2,150 bond Thursday to guarantee court costs on an appeal to the 8th U.S. District Court of Appeals.

## Bible Group Sees No Need for Merger

By FRANK PITMAN

DENVER, Colo. (AP)—The National Association of Evangelicals (NAE) has coupled a call for united action by other Bible-believing groups with a disclaimer of any need for merger of church groups.

One resolution adopted by the NAE's 20th annual convention Thursday appealed for broader cooperative action by church groups for strengthening evangelical witness and influences.

Another resolution said NAE believes that Christian unity is basically a spiritual relationship among people. We believe that this unity is manifested by love inspired fellowship that stimulates cooperative effort toward a more effective Christian witness without the necessity of formal ecclesiastical union or uniformity of practice and policy.

The NAE is composed of 38 Protestant denominations representing about two million members.

An association spokesman said the invitation to other Christian religious groups was intended primarily for those not currently involved in major church consolidation movements.

The Rev. W. Stanley Mooneyham, NAE information director, said the proposal is not for merger, but is to discuss methods of strengthening evangelical witness and influences.

One of the speakers at concluding convention session, Dr. Herbert S. Meekel, pastor of the First Presbyterian church of Schenectady, N.Y., asserted the Ecumenical one worldwide church movement would lead to Roman Catholic domination.

"Rome is always the same," Dr. Meekel said. "Despite overtures of peace, they believe true ecumenism man the eventual return to Rome."

Another speaker, Dr. Billy Graham said the peoples of the world have become too pessimistic "and there is no need to be."

## Freight Rates Talk

FORREST CITY, Ark. (AP) — The Arkansas Industrial Development Commission was scheduled to meet here today to discuss freight rates, the Arkansas tax structure and the New York World's Fair. Winthrop Rockefeller, AIDC chairman, will speak.

## Mrs. Smith Quits as Treasurer

WASHINGTON (AP) — Mrs. Elizabeth Rudel Smith has resigned as treasurer of the United States, effective today, the White House announced.

William T. Howell, who has been in the office of the treasurer for 24 years, has been designated by Secretary of the Treasury Douglas Dillon as acting treasurer.

The White House indicated, however, that tradition will be followed in naming a woman to the post later.

Rep. Kathryn E. Granahan, D-Pa., is regarded as the leading candidate. Rep. Catherine Norrell, D-Ark., has been mentioned as a possible candidate.

## Experiment in Cancer Is Revealed

By FRANK CAREY  
Associated Press Science Writer

ATLANTIC CITY, N.J. (AP) — Production of cancer in laboratory animals with a virus that commonly causes a severe type of respiratory cold in humans was reported today.

The achievement was announced by a group of Texas researchers who said tumors were produced in hamsters with one type of adenovirus — a microbe first isolated from diseased human adenoids nine years ago and now known to have various strains. Effective vaccines against some strains have been developed.

And the American Cancer Society, which helped support the Texas research, said the work provides a new stimulus to the theory that some human cancers could be caused by viruses—and thus are possibly open to treatment or prevention by vaccines.

But the ACS, in a report released simultaneously with the formal announcement by the Texas group, stressed that production of the hamster cancers with a virus responsible for another type of human ailment by no means constitutes proof that human cancers are virus-caused.

Dr. John J. Trentin of Baylor University College of Medicine told about the hamster tumor research in a report prepared for the annual meeting of the American Association for Cancer Research, one of the world's leading cancer research organizations.

## Trouble May Be Ahead for Steel Firms

By ROGER LANE  
Associated Press Business Writer

NEW YORK (AP)—A possibility has been raised that the steel price rise might have to be canceled if two Midwestern producers held out against it.

It developed even as the government moved for a grand jury investigation of the \$6 a ton increase put into effect Wednesday and Thursday by U.S. Steel Corp. and several other large companies.

Neither Armco Steel Corp., the sixth-ranking producer, nor Inland Steel Co., the No. 8 firm, has indicated whether it would follow suit.

Roger M. Blough, chairman of U.S. Steel, was asked Thursday at a news conference whether the price markup could stick if Armco and Inland decided against a similar increase.

"It would definitely affect us," Blough said, "and I don't know how long we can maintain our position."

He interrupted a followup question, saying "It would make it very difficult for us."

At Middletown, Ohio, Armco declined comment Thursday night on its price plans. In Chicago, Inland said it was still studying the action of other concerns.

Blough firmly defended the action of U.S. Steel, by far the biggest producer and the first one to move.

Replying to sharp criticism by President Kennedy, the industrialist said there was nothing irresponsible in the boost and that he was as concerned as others about the nation's welfare, strength and vitality.

He said he was surprised by the bitterness of White House reaction and was not in any sense defying anyone.

In a lengthy explanation, Blough said raising prices, and hopefully profits, was a step to accumulate plant improvement and modernization funds needed to keep in the competitive race with the modern steel mills abroad built in the postwar period.

This was made necessary by rising costs, he said.

Blough expressed surprise at an estimate that the steel hike would add \$1 billion to defense expenditures. Direct sales to the Defense Department, including sales through subcontractors and every body else, would account for only about \$20 million extra, he said.

The increase, he said, adds at most negligibly to materials costs in every-day products. As typical, he mentioned \$5.64 for a small refrigerator, \$10.64 on a standard-size car, three cents for an electric toaster, 70 cents for a domestic 4-burner range, five one-hundredths of a cent on a common-sized food can.

## Man Fined for Fighting Cocks

HOT SPRINGS (AP) — George Oster of near Hot Springs was fined \$200 and costs and given six months suspended sentence for violating state statutes prohibiting cock fights.

Oster was taken into court after Circuit Judge P. E. Dobbs issued a search warrant, which was served by trooper Glen Minton. Minton did not find any cock fighting at an establishment owned by Oster, but he found what he called "signs of cock fights."

They included feathers and blood in a pit, and cocks with long spurs.

## Steel Owners Back Off Under Heavy Pressure

By NORMAN WALKER

WASHINGTON (AP) — President Kennedy's price-crushing victory over the mighty steel industry left him clothed today with new influence to shape the American economy.

The steel giants bowed one by one Friday to a massive, three-day government drive forcing them to cancel \$6-a-ton price increases announced late Tuesday.

The surrender under furious Kennedy attack was a public spectacle unlikely to be soon forgotten by industry or labor leaders considering a try at breaching the administration rules for wage-price stability.

The President, after denouncing the price boosts touched off by the U.S. Steel Corp., unleashed the full brunt of government retaliatory power to force the rollback.

"The people of the United States are most gratified," Kennedy said on learning that major steel producers had reversed their decisions. He was just starting an inspection of Atlantic Fleet maneuvers.

The President's brother, Atty. Gen. Robert F. Kennedy, though also elated at the administration victory, charted full speed ahead on the New York federal grand jury investigation he had ordered into the price increases. He said the price rollback would not have any effect on continuing the probe.

Similarly, two congressional committees said they would carry out plans for investigations. Chairman Emanuel Celler, D-N.Y., said however, the House Judiciary Committee would engage in more of a study than an investigation, with the purpose of determining whether the antitrust laws need strengthening.

A Senate Antitrust and Monopoly Committee headed by Sen. Estes Kefauver, D-Tenn., also will go ahead.

The surrender parade was signaled by Inland Steel's decision not to raise prices. Then Bethlehem Steel, No. 2 in the industry and heavily involved in government ship-building, canceled its previously announced increase.

From then on it was a rout, with U.S. Steel tossing in the towel. Big Steel said it couldn't stand alone and wanted to "remove a serious obstacle to proper relations between government and business." Only 24 hours before, U.S. Steel Board Chairman Roger M. Blough said at a televised news conference in New York that his firm would stick to its higher prices.

Secretary of Labor Arthur J. Goldberg—one of the chief Kennedy lieutenants in bringing the steel industry around—went secretly to New York to talk to Blough.

A high administration source said that no deal was made, however, to bring the steel companies around.

The arsenal of weapons the President wheeled into his all-out economic foray against the big business leaders was an awe-inspiring display of coldly determined political and economic power seldom employed by the government. Every major governmental department got into the act.

The President himself got on the phone to people of influence. Steel moguls were flooded with grand jury and congressional committee subpoenas. Steps were taken to channel government orders to steel firms holding the price line. These holdouts were encouraged.

Secretary of Defense Robert S. McNamara said, for instance, that steel buying for defense contracts would be shifted to firms that did not raise prices.

It was clear when the fight ended Kennedy had only begun. "This is what may have impressed the industry."

The view here is that the steel companies might have gotten away with hoisting prices gradually later on—some time after the newly negotiated steel labor contract had gone into effect July 1.

But with Kennedy publicly describing the labor pact as non-inflationary, the sudden price increases left the President on the spot.

Kennedy had caged the United Steelworkers Union into a modest settlement with the implicit, though unstated—understanding the price side of the bargain would remain unchanged.

The President obviously felt that what was at stake was his future ability to maintain the wage-price line—something he had constantly emphasized as vital to the nation's world position and commitments.

## When the City Becomes a Bit Noisy, Thursday, April 19, Just Don't Be Alarmed

By MARY ANITA LASETER

For a few minutes next Thursday, April 19 it might be a little bit noisy in our town. But don't be alarmed.

Beginning at 12 noon (CTS), "Bells Across the Nation," a project of the National Americanism Commission of The American Legion, will resound throughout this great land of ours.

Church bells, chimes, carillons, school bells, bells of all sizes and kinds will ring in unison from coast to coast for a period of four minutes to remind all citizens of their heritage of freedom.

Why pick April 19 for this renewed assertion of pride in our American heritage? That is the anniversary of the Battles of Lexington and Concord and of Paul Revere's ride to call the colonists of Massachusetts to arms.

According to an article by National American Legion Commander Charles L. Bacon in "The Arkansas Legionnaire," on April 19, 1962, the bells will sound, not as a call to arms, but as a massive, voluntary demonstration that America is already armed—armed in unity, in spirit and in deep moral conviction.

"Bells Across the Nation" is not a publicly stunt nor an empty, worthless attempt at pseudo-patriotism. With the co-operation of the citizens of the United States of America, the bells across the nation can be heard around the world. They will assert the feeling of patriotism in Americans everywhere and will be like a shot of adrenalin for tired hearts too long dormant in indifferent beasts.

When Col. John Glenn made his triumphant space flight, people in the U.S.A. seemed to awaken from a severe case of doldrums. Once again patriotic feelings were felt deeply, not merely asserted. The same is true of Faith in God, for that is the principle on which this country was built and the only way it can endure triumphantly.

"Proclaim liberty throughout all the land unto all the inhabitants thereof." April 19 is already observed in several states as Patriots' Day. This year that date will have even more significance with the sounding of bells as a measure of America's exultation in its own strength.

Commander Bacon said, "Just as the Liberty Bell signaled that a new nation had been brought forth in a new world, let the bells of all faiths and creeds ring out on Patriots' Day as a symbol of faith, of strength, and of abiding unity of purpose amid all the diversity of our times."

## Things Just Happen in Charleston

By BARBARA J. STAMBAUGH  
Charleston News & Courier Staff Writer

CHARLESTON, S.C. (AP)—A Cornish rooster's life was spared, the chopping block and meat cleaver went unbloody, and a Chinese restaurant owner, Chu Key Soon, told his story in the Court of Common Pleas—but not under oath.

"I've always been told things happen in Charleston that never happen anywhere else in the world," observed Judge Julius B. Ness.

Lawyers for Soon, who had been involved in an automobile accident, explained to the judge Thursday that the rooster Soon brought to court was vital to his oath to tell the truth. Swearing on the Bible was not binding on a Confucian, they explained.

"His religion requires that he say a prayer to Confucius and chop the rooster's head off in the courtroom," one lawyer said.

The alternative oath-taking method—burning incense to a statue of Buddha—was out of the question. Soon's statue had broken and the lawyers said there was none to be found in the city.

Judge Ness told a crowded courtroom, "I am not going to have an exhibition. This doesn't appeal to me a bit."

"I've sent down to the local library and am informed that a

## Extortion Try Ends in Arrest

WINNSBORO, La. (AP) — FBI agents arrested a 38-year-old Winnsboro man Thursday night for attempting to extort \$20,000 from a bank president.

H. G. Maynor, special agent in charge of the New Orleans area FBI office, identified the man as Durel Cecil Stringer, a salesman and unsuccessful candidate for Franklin Parish sheriff three years ago.

Stringer was nabbed at the pay-off spot after being under surveillance by FBI agents.

The announcement from Mayor said Stringer sent an extortion letter to W. F. Prickett, president of the Winnsboro State Bank and Trust Co. demanding \$20,000.

## K Rebuffs Plea to Halt Nuclear Tests

By ARTHUR GAVSHON

LONDON (AP)—Soviet Premier Khrushchev rebuffed today an American-British plea to join in speeding a treaty banning nuclear weapons tests, a qualified diplomat reported.

Khrushchev, in a long reply to Prime Minister Harold Macmillan, described the Western move as propaganda, the informant said.

President Kennedy and Macmillan last Tuesday published terms of a request that Russia allow international inspectors to check any suspicious hangs.

Soviet agreement, they said, would clear the way for an early test ban treaty, but Soviet refusal would mean the American series of nuclear tests will have to go forward later this month, as planned.

Soviet Ambassador Alexander Solodov delivered the premier's message to the Foreign Office. A Foreign Office spokesman declined to disclose its contents immediately.

The Foreign Office spokesman said the message was between 3,000 and 4,000 words long and was in the Russian language. He said the Soviet government plans to publish it in the Moscow newspapers Saturday morning.

Solodov handed Khrushchev's reply to Sir Harold Caccia, permanent undersecretary for foreign affairs. As soon as it was translated it was hustled to Macmillan, weekending at his country residence outside London.

The informant did not indicate if Khrushchev submitted any sort of counterproposal in his message. He said, however, the entire tone of the Soviet note amounted to a turn-down of the British-American request.

Macmillan Tuesday sent a terse covering letter stressing to Khrushchev that the "object of verification of suspicious explosions" is not to increase suspicion but to dispel it.

Khrushchev today, according to the source, dwelt at length on this question of East-West suspicion and distrust. He was said to have argued that he conceded the right of the West to distrust Russian good faith. He said he assumed he had the same right to distrust Western intentions. Yet, he argued, these suspicions have not led the Soviet Union to submit excessive and rigid demands for safeguards in a test ban treaty.

## Cool Dust Blast Leaves 4 Burned

MEMPHIS (AP)—One man was seriously burned and four others "singed" in a coal dust explosion set off by a spark from a welding torch at the Memphis electric power plant.

Bill Ellington, 29, received burns over about 30 per cent of his body in the blast Thursday.

The explosion blew out a 60-foot hole at the 10th floor level of the big generating station. The torch was being used to cut away a temporary coal chute.

Damage was minor.

A complaining Hungarian thus described a new brand of cigarettes in the Communist-ruled country, in a letter to the provincial newspaper Belkes Megyei Nepszavag.

"If you smoke it, ashes drop in all directions like lava after the eruption of a volcano," he wrote.

## Stage Set for a Nuclear Arms Contest

By PRESTON GROVER

MOSCOW (AP)—The stage was set today for a nuclear arms race as Premier Khrushchev vowed to match Western nuclear tests blast for blast—underwater, underground, in the atmosphere, even in space.

Khrushchev has rejected a last-chance appeal from President Kennedy and British Prime Minister Harold Macmillan to accept a controlled end to nuclear testing and head off American tests scheduled for later this month in the Pacific.

Kennedy and Macmillan had asked Khrushchev in a statement earlier this week to reconsider the Soviet refusal to accept any form of international controls within a test-ban treaty.

Khrushchev's answer, in a note distributed by the Soviet news agency Tass and broadcast by Moscow radio, declared that the Soviet Union could not accept the Western plan because Russia refused to permit "unhindered intelligence" over its territory.

Instead, Khrushchev urged the Western powers to show more trust in the Soviet Union and accept its proposals for an unpoliced test ban treaty. Otherwise, he declared, "the implementation of your declared decision to hold tests compels us to prepare and hold tests of our nuclear weapons."

"And in the future, your holding of nuclear weapon tests underground or in the atmosphere, in space or underwater, will force the Soviet Union to hold tests of its own nuclear weapons so that the defense (of the Soviet bloc) ... would be at an appropriate level," the statement said.

At the 17-nation disarmament conference in Geneva, Britain also spoke of what it called the "Soviet nuclear weapons advantage gained from the Soviet tests last fall. The British said their 'they' were willing to let the Soviet Union keep this advantage if it accepted a check-proof test-ban treaty.

Just as Soviet delegates did at Geneva, Khrushchev rejected international inspection as a means for Western spying in Russia.

## Espionage Trial Hears Testimony

WIESBADEN, Germany (AP)—A special American agent testified today at the espionage trial of U.S. Air Force Capt. Joseph P. Kaufman that another agent searched Kaufman's California apartment without a search warrant.

Richard A. Bya Jr. told Col. James C. Cheney, Jacksonville, Fla., who is presiding as judge at the court-martial, that agent Raymond White searched Kaufman's home in Atwater, Calif., before an official search was made with a warrant on Dec. 8, 1961.

The defense has challenged evidence obtained in the searches. Bya identified himself and White as special investigators from Castle Air Force Base, Calif. He had refused to answer questions by Kaufman's civilian lawyer, George Lalimer of Salt Lake City, Utah, on White's search Thursday because, he said, it involved classified investigation methods.

Kaufman, a native of Rutland, Vt., is accused of supplying the East German Communists with information on U.S. Air Force installations, their tactical and personnel strength, and with data on Air Force officers. He has pleaded innocent.

## Shelters Rediculous

MEMPHIS, Tenn. (AP)—Building bomb fallout shelters is "un-American and ridiculous," says the president of the National Association of Real Estate Boards.

"I cannot believe that America can or will ever go underground and burrow like a mole," Arthur P. Wilcox of Boston told the Memphis Real Estate Board Thursday.

organizations of cancer investigators.

Co-authors of the report were Dr. Yoshio Yabe, also of Baylor, and Dr. Grant Taylor of the M.D. Anderson Hospital, University of Texas.

Trentin said cancers were produced in the hamsters by injecting viruses known as type-12 adenovirus.

That's one of a number of the various types of adenovirus that constitute a common source of respiratory infection among both children and adults.

The type of respiratory ailment caused by the adenoviruses differs from the garden-variety of common cold in several respects:

1. The onset is usually more gradual.
2. The symptoms—including fever, chills, runny nose, watering eyes, sore throat, hoarseness, wheezing, cough and a general down-in-the-dumps feeling—are more severe.
3. The malady, disabling but seldom going on to further complications, lasts longer than an ordinary cold.

Trentin said that in a separate study it was found that more than 25 per cent of patients treated for a variety of diseases at one hospital had been exposed and were immune to the same kind of virus used in the hamster studies.

The measure cleared Congress Thursday when the House swiftly accepted Senate amendments. It authorizes procurement of missiles, airplanes, ships and other weapons—and includes \$320 million more than the administration sought to speed the RS70 reconnaissance strike bomber program.

The authorization is subject to later appropriations.

**Famous Train Engine Will Retrace Rout**

By BILL RAWLINS

ATLANTA, Ga. (AP)—One of the South's most famous locomotives is to retrace the route of one of the Civil War's most colorful episodes—the great chase through north Georgia.

The General is the new famous wood-burning locomotive which was stolen 100 years ago by 22 Union spies. They raced it at speeds up to 72 miles an hour toward Chattanooga—with Confederate crewmen in hot pursuit.

As part of the Civil War Centennial, the General has been reconditioned by the Louisville & Nashville Railroad for a 100-mile commemorative trip Saturday.

With appropriate fanfare, hoopla and celebrations by bearded and costumed townsfolk at six stops en route, the General will huff and puff back to Chattanooga—the city which was its home in retirement for many years.

The story of the General is the story of the Andrews raid.

It was on April 12, 1862, that 21 members of the Ohio Volunteer Infantry—led by professional spy James Andrews—stole the General at Big Shanty, Ga., just north of Marietta.

Their mission was to burn all railroad bridges and cut all telegraph lines in their wake, to isolate Atlanta.

The plan was foiled by William A. Fuller, young conductor for the Georgia-owned Western & Atlantic Railroad. He led his crewmen in

Are There Any Good Men Today?

By HELEN WORDEN ERSKINE

Dear Helen: Don't you think there is a scarcity of good husbands? I am a woman of 28, good looking, intelligent and well enough educated, and I wish to marry. But when I look around among the men I know I do not find one who looks as good to me as my job does.

Also, when I look around among my married friends, I envy none of them their husbands. In our grandmother's time good husbands were apparently plentiful. At any rate, all the girls married and divorce was almost unheard of, but nowadays the supply of good husbands seems to have petered out. What's the reason?

Lonely

Dear Lonely: Whether there are fewer good husbands in these days than in the past is a moot question. Possibly the reason that more girls married than now is not because good husbands were plentiful, but because the girls in those days were not so choosy as they are now. A husband then was a necessity and not a luxury as he is now, so girls took what they could get and made the best of it.

Personally, I am persuaded that there is nothing in which there has been such a great improvement made in modern times as in husbands. Grandpa, for instance, thought woman's place was in the home after she got married and that all the diversion she needed was having babies and seeing that he was well fed and made comfortable.

He never dreamed of such a thing as making her his partner in his pleasures and sports. Grandpa grabbed all of Grandma's property if she had any when they were married and she never saw it again. In any case, he doled out what he saw fit to give her and would have dropped dead at the very suggestion of making her an allowance. And Grandpa talked to Grandma in a

**Explosions Kill Man at Plant**

MARS, Pa. (AP)—Multiple explosions and a raging fire at a chemical plant killed one man today and led to the death of another.

A third worker was injured in the blast and flames which destroyed the Treedsteel Laboratories and Pittsburgh Metals Purifying Co. Inc. plant about a mile south of this western Pennsylvania town.

Unofficial estimates placed the loss at about \$1 million.

Coroner J. Clinton Atwell of Butler County identified one of the dead as William Cooper of Sarver.

Clyde Hilliard, 40, of Sarver, died in a hospital at Butler. Joseph Baxter, 23, of Pittsburgh was listed in fair condition.

The plant manufactured a chemical product which removes impurities from steel.

**Asks New Trial for Gangster**

LOS ANGELES (AP)—Dist. Atty. William B. McKesson says he will ask Superior Court April 18 to set a new trial for Mickey Cohen and four codefendants on murder and conspiracy charges.

They are accused of the fatal shooting of Jack (The Enforcer) Whalen in a restaurant Dec. 2, 1959.

A jury failed to agree and was discharged last Tuesday in the trial of Cohen, Sam Frank LoCigno, Roger Leonard, George Perry and Joseph DeCarlo.

Go to the Domestic Relations Court (the Town Clerk can give you the location) and ask for immediate help.

Send your problem to Helen Worden Erskine. Be sure to enclose a stamped, self-addressed envelope and address her care at this newspaper. Helpful leaflets available. Write for "The Way to a Boy's Heart."

**Big Steel Faced With Two Threats**

By STERLING F. GREEN

WASHINGTON (AP)—Big Steel faced two momentous threats today as a newly ordered federal grand jury investigation took aim at the \$6 a ton steel price increase.

The possible lines of government attack, now officially confirmed by the Justice Department are:

1. Possible criminal penalties against the price-raising firms and their executives if the government can find and prove any price collusion.
2. A move to dismember the industry's giant, U.S. Steel Corp., if the government can convince a federal court that it "so dominates the industry that it controls prices and should be broken up."

Administration officials disputed or shrugged off the 55-minute defense of the price rise made by U.S. Steel's chairman, Roger M. Blough, in a televised news conference Thursday, in New York. There was no comment from President Kennedy.

Blough said the increases were necessary "to the welfare, the strength and the vitality of the nation." They would, he said, partially correct a profit squeeze that handicaps American steel in meeting stiffening world competition.

Blough said he was surprised at the angry reaction of Kennedy on Wednesday, since no assurances were asked by the White House and none were given that prices would not be raised after last week's steel labor settlement.

Kennedy, who gave his blessings to the union contract agreement and called it noninflationary, blasted the price hike as an unjustifiable and irresponsible profit grab at the expense of the national interest.

Ever since, the scurrying of Justice Department agents and lawyers has been conspicuous.

Thursday night it began to make a pattern, as Atty. Gen. Robert F. Kennedy gave out a few crumbs of information.

First, he announced he had ordered a grand jury investigation in New York of the firecracker chain of virtually identical price increases set off by U.S. Steel.

That was all the attorney general told, and he told it because Blough under news conference questioning had disclosed that price records of U.S. Steel had been subpoenaed Thursday morning. Blough said he was not subpoenaed personally.

Later the Bethlehem, Jones & Laughlin and Armco Steel corporations confirmed they had received subpoenas, and that the president of still another com-

**Student's Death Ruled a Suicide**

CHICAGO (AP)—A coroner's jury decided Thursday the death of an Illinois Institute of Technology student from an overdose of sleeping pills was suicide.

Benjamin Knowles, 22, of Box 334, Springfield was found dead in a motel March 13.

Two witnesses testified at the inquest that he frequently took sleeping pills before retiring and had prayed that he would not awaken.

pany, not identified, has been subpoenaed to appear a week from today.

Next, newsmen learned that the attorney general had discussed—with a group of visiting foreign college professors—the possibility of forcing U.S. Steel to divest some segments of its vast empire of ore fields, blast furnaces, mills and fabricating plants.

FOR HEAVEN'S SAKE, WILL YOU PLEASE TAKE YOUR JACKET AND CAP OFF UNTIL THE DOGS FINISHED EATING? HE'S BOLTING HIS DINNER FOR FEAR YOU'LL GO OUT WITHOUT HIM! IT'S BAD ENOUGH CLEANING UP THE MESS HE LEAVES ON THE FLOOR WITHOUT HAVING TO SCRAPE IT OFF THE WALLS!

LISTEN TO ME, YOU PAIR OF ELONGATED FLUES! LET WHAT I HAVE TO SAY FILTER THRU YOUR THICK HEADS! UMF

YOU HAVE TAUNTED ME A LOT ABOUT BEING INDOLENT - WELL, THERE ONCE WAS A GENTLEMAN NAMED ISAAC NEWTON - ONE DAY HE WAS LYING UNDER AN APPLE TREE - CALL IT LOAFING! WHILE HE WAS DOZING, AN APPLE FELL ON HIS HEAD, AND THAT INCIDENT, YOU SMART ALECKS, LED TO HIS DISCOVERY OF THE LAW OF GRAVITY! YES, WHILE HE WAS LOAFING!

THIS'LL HOLD 'EM AWHILE, MAJOR =

## THE LAST SUPPER

What a significant meal for these twelve men! What a privilege to be in such high company! They were chosen to carry on God's work and to help bring in His kingdom. Can we hear him say, as Dr. Gordon did, "I have no other plan, gentlemen, I am depending on you." Imagine the seriousness of the situation. Jesus was through. Tomorrow He would die on the Cross. These twelve imperfect men must carry on. One loved his money, one was afraid, two had unruly tempers, and the others sometimes ran away. But Jesus loved them and needed them as He needs you and me. His kingdom must come on earth. Thus, the Lord has no other plan but to count on you and me. The Last Supper has become a continuing supper. Churches call their members together about their Lord, and administer the ordinance, saying, "this do in remembrance of me."

**You In The Church**  
**The Church In You**  
— form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

## So They May See == Ephesians 6:1-16 == So They May Hear

**C**HILDREN, OBEY YOUR PARENTS in the Lord; for this is right.

2. Honour thy father and mother; which is the first commandment with promise;

3. That it may be well with thee, and thou mayest live long on the earth.

4. And, ye fathers, provoke not your children to wrath: but bring them up in the nurture and admonition of the Lord.

5. Servants, be obedient to them that are your masters according to the flesh, with fear and trembling, in singleness of your heart, as unto Christ;

6. Not with eyeservice, as menpleasers; but as the servants of Christ, doing the will of God from the heart;

7. With good will doing service, as to the Lord, and not to men:

8. Knowing that whatsoever good thing any man doeth, the same shall he receive of the Lord, whether he be bond or free.

**A**ND, YE MASTERS, do the same things unto them, forbearing threatening: knowing that your Master also is in heaven; neither is there respect of persons with him.

10. Finally, my brethren, be strong in the Lord, and in the power of his might.

11. Put on the whole armour of God, that ye may be able to stand against the wiles of the devil.

12. For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.

13. Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand.

14. Stand therefore, having your loins girt about with truth, and having on the breastplate of righteousness;

15. And your feet shod with the preparation of the gospel of peace;

16. Above all, taking the shield of faith, wherewith ye shall be able to quench all the fiery darts of the wicked.
